

PDREP-AIS Production Publish for 1 Oct 2025
PDREP-AIS Version: 6.0.34

Module	Software Change Request #	Summary of Change
Attachments (PDREP 7)	PDREP-394	Adds Y/N column to the attachments table to associate with RIMS CERT REVIEW record attachments.
Attachments (PDREP 7)	PDREP-395	Adds a Y/N option to the attachments screen to allow for marking a cert package attachment as final.
CAD	PDREP-530	Supporting Initial Effort to Ingest More Date fields from EDA/WAWF.
CAR	PDREP-415	Update the CAP Approved Days Active column to trigger turning red based on Planned Verification and Planned Validation Dates instead of 30 days.
CAR	PDREP-416	Access Distribution lists from CAR module correspondence page.
CAR	PDREP-417	Standardize contract number field and DO/TO, to 13 characters for DOD CARs Only.
CAR	PDREP-418	Update validations on DoD CAR CAP page to account for business days vs. calendar days.
CAR	PDREP-419	Update DO/TO field on Worklist and in database to 13 characters.
CAR	PDREP-420	Update Added User SYSCOM to pull from the CAR Tables vs the user's current profile settings.
CAR	PDREP-516	Removes obsolete eTools CAR view.
CAR	PDREP-759	Label changes to KCR, Event and Activity.
CAR	PDREP-777	Move the CAP Extended Due Date under the CAP Extension Request Reason Area and leave View only CAP Extended Due Date in current position.
CAR	PDREP-778	Change KCR EVENT to SYSTEM OR PROCESS, KCR ACTIVITY to SUB-PROCESS, KCR SUB-ACTIVITY to SUB-ACTIVITY.
CAR	PDREP-779	Update search page to return to the previous search results instead of having the user re-run the search.
CAR	PDREP-780	Add language to top of the existing D-CAR notification for subcontractors.
CAR	PDREP-782	Add option for CUI markings on CAR letters that can be downloaded but not transmitted via PDREP.

Module	Software Change Request #	Summary of Change
CAR	PDREP-783	Do not display users with deactivated accounts on the transfer page dropdown. Only transfer CARs within SYSCOM.
CAR	PDREP-784	Update Level 1 CAR to only allow Response Required = NO
CAR	PDREP-785	LOCK LEVEL II CARS SO THEY ALWAYS REQUIRED A RESPONSE.
CAR	PDREP-786	Remove Failure and Approval buttons after page refresh.
CAR	PDREP-788	Relabeling "Deficiency" to "Noncompliance" in CAR.
CAR	PDREP-789	Relabeling "Deficiency" to "Noncompliance" in CAR.
CAR	PDREP-790	Renames Contractor Procedure to Contractor's Process(es) and makes the field Mandatory.
CAR	PDREP-791	Fixes case where blank program name can be added onto a CAR draft.
Contractor Profile	PDREP-768	Customer reported issue with Contractor Profile not returning data from database (PH-8995), when it has in the past. Fix issue to restore Contractor Profile back to full functionality.
DCIS Summary Report	PDREP-602	Add new selection to DCIS region dropdown.
ERS	PDREP-283	Moves send message to the left menu on the landing page.
ERS	PDREP-288	Adds the NNPI Indicator to the screening point page for visibility.
ERS	PDREP-294	Sets the default value of the reassignment drop-down to blank to require user select who exactly they wish to reassign to.
ERS	PDREP-298	Updates ERS back-end code to remove an unused database column.
ERS	PDREP-301	Updates form validation during the screening point final signature step.
ERS	PDREP-303	Fix ERS tabs to properly display when you are within the module.
ERS	PDREP-335	Data sweep for ERS records to mark all records in the CLOSED location to have a CLOSED status.
ERS	PDREP-424	Updates ERS Search spreadsheet downloads to match webpage column headers.

Module	Software Change Request #	Summary of Change
ERS	PDREP-425	Fix ERS Ad hoc to return data in cases where it was not properly returning data.
ERS	PDREP-874	Validate the COG in ERS and only allow valid COGs to be saved.
Level I / SUBSAFE Search	PDREP-375	Data sweep for MIR data in production for records missing a complete status.
Main Menu	PDREP-256	Updates the arrows on the PDREP Main Menu for accessibility.
Main Menu	PDREP-501	Update the PDREP Menu Links so they take the user to the new Warranty Module.
Main Menu	PDREP-865	Changes the recently accessed list to show up to 7 days of accessed records vice 1 day.
PQDR	PDREP-317	Update database element QDR_CONDITION to reflect its common use outside of the PQDR application.
PQDR	PDREP-368	Removal of remaining EzPQDR code in the PQDR application.
PQDR	PDREP-369	Correct import procedure for JDRS to PDREP Army RCNs.
PQDR	PDREP-370	Updates promote package for JDRS Action POC import to PDREP Army Master Screener.
PQDR	PDREP-442	Reinstatement of Originator's Defect Code in Blocks 1-21.
PQDR	PDREP-443	Create a table for the Originator Defect selection on Blocks 1-21.
PQDR	PDREP-444	Visually clean up the closing pages with alignment of fields.
PQDR	PDREP-447	Removal of indicators highlighting the DLMS changes made to the Screening Point closure page.
PQDR	PDREP-448	ADC 1007D Remove retraction capability and access to see non-Army Action Point information from Army Action Officers.
PQDR	PDREP-454	Removal of USERTYPE_CTR from the PQDR codebase.
PQDR	PDREP-524	Removal of NAVSUP Level 1 reporting from PDREP-AIS Main Data page.
PQDR	PDREP-538	Exported DLA originated PQDRs tagged as CAT III to include subcategory information.

Module	Software Change Request #	Summary of Change
PQDR	PDREP-539	Exported DLA originated PQDRs tagged as CAT III to include subcategory information.
PQDR	PDREP-564	Update to align data element field name change.
PQDR	PDREP-573	The addition of the RIMS_PROJECTS drop-down in Blocks 1-21 for Navy Users. Utilizing standardized functionality that Navy users will be seeing in RIMS will ensure ease of use in PQDR.
PQDR	PDREP-669	Update the Activity Name the letter template for id "pqdrletter_f_activityName" to reflect what is in DODAAC TAC1 Activity data field.
PQDR	PDREP-729	Remove mapper for Action Requested on Blocks 1-21, RECOMMENDATION_CODE.
PQDR	PDREP-765	Add NSN 9B 6150 01599087 back into the RCN N42158-25-00237 that was removed during cloning.
PQDR	PDREP-914	Field ship_or_project_number added to PQDR Ad hoc.
QALI/LOD	PDREP-766	Updating FMS Case Table.
QALI/LOD	PDREP-792	Label Changes to KCR, Event, and Activity in LOD Module
QALI/LOD	PDREP-793	Label Changes to KCR, Event, and Activity in LOD Module
QALI/LOD	PDREP-931	Adding 3 FMS Case Numbers.
RIMS	PDREP-318	Updates the RIMS Worklist to remain visually centered following clicking Display Worklist.
RIMS	PDREP-330	Updates the specification field length for the lab sheet to match the main RIMS value.
RIMS	PDREP-364	Updates RIMS signatures area to closer match the order of operations and improve the new-user experience.
RIMS	PDREP-387	Adds a Record Type value to RIMS tables to allow for non-shipyard entities to properly use RIMS.
RIMS	PDREP-388	Enables the RIMS application to reference new Record Type fields.
RIMS	PDREP-389	Updates the RIMS Main Page to work with the new Record Types column.
RIMS	PDREP-390	Modifies the RIMS Edit Attributes Page for NAVSUP Cert Review records.

Module	Software Change Request #	Summary of Change
RIMS	PDREP-391	Creates feature to automatically assign QA Level Code for CERT REVIEW record types.
RIMS	PDREP-392	Adds new data fields to support CERT REVIEW record type additions.
RIMS	PDREP-393	Adds new data fields to the RIMS Main Page to support the CERT REVIEW and SY NUCLEAR record types.
RIMS	PDREP-396	Enables connection between CERT REVIEW and SY NUCLEAR record types.
RIMS	PDREP-527	Associates the attachments NAVSUP Cert Review record type also to the NAVSEA Nuclear Shipyard RI record type.
RIMS	PDREP-533	Removes reference to old SA RIDL tables in RIMS Ad hoc
RIMS	PDREP-607	Expands the length of the RIMS Ship or Project name to allow for some modern ships with longer names to be referenced fully and correctly.
RIMS	PDREP-876	Updates the Lab Sheet's specification field length - database portion.
RIMS	PDREP-915	Adds record type codes to RIMS Lookup tables to support the changes on PDREP-387
RIMS	PDREP-950	Recurrent configuration update to keep the database for NNPI-side PDREP functioning.
RIMS	PDREP-953	Updates all pre-existing RIMS records to allow for compatibility with new RIMS record types.
SAA	PDREP-403	Create data package of common fields between SAA and CAR and the associated data.
SAA	PDREP-404	Adds button for CAR connection to SAA.
SAA	PDREP-406	Adds ability for users answering an audit to add new questions onto an established list and answer them. This new template will be able to be used only by the user who created it.
SAA	PDREP-407	Enables non-management users to access the Checklist tab and only manage their SVC-created template.
SAA	PDREP-409	Adds ability for additional owners of a checklist template.
SAA	PDREP-547	Adds new columns from modernization into the SAA Ad hoc.
SAA	PDREP-951	Updates PEE mapping with new column name.

Module	Software Change Request #	Summary of Change
SAM	PDREP-267	Fixes case where user could provide requisition and contract data but also select the "value is not provided or is unknown" checkboxes.
SAM	PDREP-270	Updates the QTY Reported field to be mandatory upon initial record creation.
SAM	PDREP-273	Adds assigned user as a column on the SAM Worklist.
SAM	PDREP-274	Adds a pdf link to the SAD Worklist to make identical in features to the RIMS RIDL Worklist
SAM	PDREP-275	Adds exhibit tracking as an option for RIMS/SAM Ad hoc - database work.
SAM	PDREP-534	Moves the SAD Metrics button to make more sense for the workflow
SAM	PDREP-952	Adds exhibit tracking as an option for RIMS/SAM Ad hoc - app-side implementation.
SDR	PDREP-474	Admin Closure of Marines SDRs by Request.
SDR	PDREP-475	Display the proper count of SDR attachments when there are attachments with CUI markings.
SDR	PDREP-476	Improving Poor Worklist Query Performance.
SDR	PDREP-478	Allowing users to manually change the NIIN that is auto filled from Requisition Number during SDR Submission.
SDR	PDREP-479	Ensures that attachments added on SDRs are sent to WebSDR along with the transactions.
SDR	PDREP-480	Ensures that attachments added on SDRs are sent to WebSDR along with the transactions (DB Work)
SDR	PDREP-481	Enables SDR Closure or Cancel on SDRs that may have improper Contract Numbers.
SDR	PDREP-482	Enables SDR Closure or Cancel on SDRs that may have improper Contract Numbers (DB Work)
SDR	PDREP-483	Preventing Suspended Condition Codes from being Selected on Information Only SDRs
SDR	PDREP-486	Regular Data Update for Material Designator Code POCs used in SDR.
SDR	PDREP-487	Saves SDR dates as Date AND Time to improve Export Procedure logic.

Module	Software Change Request #	Summary of Change
SDR	PDREP-488	Saves SDR dates as Date AND Time to improve Export Procedure logic (DB Work).
SDR	PDREP-537	Closed Date to Only Transact on Completion Notices.
SDR	PDREP-965	Fixes Case where PDREP overwrites the provided Source of Supply RIC from WebSDR.
SDR, PDREP Auto	PDREP-484	Fixes Issue where an SDR Attachment may be associated with the wrong record.
SDR, PDREP Auto	PDREP-485	Fixes Issue where an SDR Attachment may be associated with the wrong record (DB Work).
Search Tools	PDREP-615	Removed "External Links" from Searches Section within PDREP due to dead URLs.
SP	PDREP-455	Updates SP Ad hoc to reduce latency.
SP	PDREP-660	Updates "Surveillance Event" drop-down as a mandatory field on the KCR.
SP	PDREP-681	Removed data elements from the Risk Trend Ad hoc in SP.
SP	PDREP-776	Updates end item functionality.
SP	PDREP-794	Ad hoc label change of KCR's Event & Activity to Contractor System/Process and Contractor Sub-Process. Update capitalization pull options.
SP	PDREP-795	Adds CSI Indicator to End Items and their associated records.
SP	PDREP-805	Added "Comp. Rec. Current Due Date" to "Completed Records" Ad hoc dropdown.
SP	PDREP-807	Added mandatory CSI CC and CSI IMP indicator on the KCR.
SP	PDREP-809	Added mandatory CSI CC and CSI IMP indicator on the KCR.
SP	PDREP-832	Remove the start date rule and add an "all" button to the scheduler.
SP	PDREP-833	Remove the start date rule and add an "all" button to the scheduler.
SP	PDREP-834	Label change of KCR's Event & Activity to Contractor System/Process and Contractor Sub-Process.

Module	Software Change Request #	Summary of Change
SP	PDREP-835	Label change of KCR's Event & Activity to Contractor System/Process and Contractor Sub-Process.
SP	PDREP-838	Multi select data field "DCMA reimbursable(s)" applied to the IDR & records when IDR is not possible.
SP	PDREP-839	Multi select data field "DCMA reimbursable(s)" applied to the IDR & records when IDR is not possible.
SP	PDREP-840	Label change to three Functional Areas1. "NASA Quality Assurance", 2."Earned Value Analysis" and 3. "Software Acquisition Management".
SP	PDREP-841	Removing "Surveillance Technique" mandate.
SP	PDREP-842	Removed the following fields from the SPE IDR: Command Media Adequate, (M) Process Compliance Assessment, (M) Process Effectiveness Assessment.
SP	PDREP-843	Updating the PMBI list.
SP	PDREP-844	New records data element "FMS" with a yes/no dropdown.
SP	PDREP-845	New records data element "FMS" with a yes/no dropdown.
SP	PDREP-846	Updates "Intensity of Surveillance" dropdown and restricting display based on Surv. Category selection.
SP	PDREP-847	Updates "Intensity of Surveillance" dropdown and restricting display based on Surv. Category selection.
SP	PDREP-849	Label change from "(M) RESULT BOX" to "(M) SUMMARY".
SP	PDREP-850	Label change from "(M) RESULT BOX" to "(M) SUMMARY".
SP	PDREP-851	Change the drop-down selection from PMBI to program support.
SP	PDREP-852	Change the drop-down selection from PMBI to program support.
SP	PDREP-853	Updated SP worklist to autofill User ID and Team Code.
SP	PDREP-868	Adds CSI Indicator to End Items and their associated records.
SPPI Bulletin	PDREP-219	Changes Point of Contact in the email from NAVSEA 06M to their group mailbox: NAVSEA_PDREP@us.navy.mil. Remove reference to Colby Millet.

Module	Software Change Request #	Summary of Change
SRS	PDREP-717	Updates the manufacturing algorithm within SRS.
SRS	PDREP-797	Creates Views into KCR Risk in SRS.
SRS	PDREP-798	Creates Views into KCR Risk in SRS.
SRS	PDREP-799	Adds CAR Level drilldown to CAPs on SRS CAGE Profile screen.
SRS	PDREP-800	Adds CAR Level drilldown to CAPs on SRS CAGE Profile screen.
SRS	PDREP-801	Reverts CAR MMC Factor.
SRS	PDREP-802	Reverts CAR MMC Factor.
SRS	PDREP-803	Updates delivery algorithm calculation in SRS.
SRS	PDREP-804	Updates delivery algorithm calculation in SRS.
SRS	PDREP-806	Moves, DSM delayed notice counts from delivery to manufacturing in category drilldown table.
SRS	PDREP-808	Update SRS SP cage report to only pull active plans.
SRS	PDREP-810	Pulled active surveillance plans with at least one active KCR within SRS.
SSR, PDREP 6 Environment	PDREP-569	Updates condition code logic
User Access (SAAR) Form	PDREP-427	Removes NoClick info from follow up notification emails.
User Access (SAAR) Form	PDREP-575	Updates SAAR form for federal partners SYSCOM 12 SAAR form display.
User Access (SAAR) Form	PDREP-577	Update federal partners SYSCOM 32 SAAR form.
User Access (SAAR) Form	PDREP-578	Correct access being applied to ACR SAAR form from the user profile for Army PQDR access.
User Access (SAAR) Form	PDREP-580	Changes subject on reminder notifications to supervisor, sponsor and security manager from "account" to "access".

Module	Software Change Request #	Summary of Change
User Access (SAAR) Form	PDREP-582	Adds CE deferred investigation CE deferred investigation date to user search Ad hoc.
User Access (SAAR) Form	PDREP-587	Changes NEW/RENEW SAAR-P background from gray to standardized PDREP blue.
User Access (SAAR) Form	PDREP-597	Updates SAAR to update available access privileges options and remove any prior privileges no longer authorized based on the users DoDAAC.
User Profile	PDREP-440	1. On import of PIII-SSO update the "Job Title Series" field on the Admin User profile. 2. Renames Label to just "Job Series. 3. Moves "Job Series" and "Title" fields above the DoDAAC SYSCOM field.
User Profile	PDREP-763	Update DoDAAC, Team/Org Code in user profile listed.
Warranty	PDREP-503	Remove all obsolete warranty code from PDREP 6.0. PDREP7.0 in place now.
